

## ASAHI AV at the 6<sup>th</sup> FLOWTECH CHINA

Exhibition name: FLOW TECH CHINA 2017

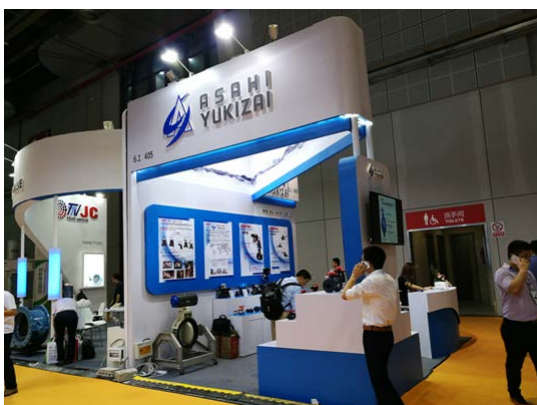

(International exhibition for valves, pumps and pipes)

Venue: Shanghai, China (National Exhibition & Convention Center, Shanghai)

Asahi Yukizai group company ASAHI AV VALVE (SHANGHAI) Co., Ltd. (Shanghai City, China) ran an exhibit at the 6<sup>th</sup> FLOW TECH CHINA held from June 7 to 9, showing actual exhibits of ASAHI AV products and providing visitors with information.

A range of products was exhibited for the steel manufacturing, chemicals, wastewater treatment, and LCD and semiconductor industries in the Chinese market, where there is still a strong international presence.

Exhibits demonstrated to visitors how plastic valves are superior to metallic valves, and various products were also on display such as automatic valves made entirely out of plastic.

【Main exhibits】

[Diaphragm Valve Type14 Pneumatic Actuated TypeAP](#)

New product using plastic drive parts!! Size 65-100mm

[Control Valve \(Pneumatic Actuated Type AV\)](#)

Praised highly in the sodium chloride electrolysis industry

[Pneumatically Actuated Butterfly Valves](#)

Applicable with large diameters

[High purity piping materials](#)

Used extensively throughout the LCD and semiconductor industries
